PBXact UC is an advanced on-premise turnkey unified communications platform which integrates all your business real-time voice and IP telephony applications into one full-featured experience. Whether your company is looking for basic PBX features with the capability of future growth options or enhanced features such as, Call-Center, MS Outlook integration, SMS, IM, CRM and Help Desk integration, PBXact UC wraps all this into one package.

Ideal for Small Businesses

PBXact UC 40 is our smallest on-premise based appliance built for small businesses looking to seamlessly integrate IP phones and VoIP trunks while improving employee collaboration and productivity with a large suite of advanced features. PBXact UC 40 supports up to 40 licensed users and 30 simultaneous calls.

The following advanced features are included, out-of-box:

**Auto-provisioning Tool**
Integrate and manage all your existing IP phones and other endpoint devices, such as Sangoma PSTN Vega Gateways and most third party manufacturers, with the EndPoint Manager module.

**VoIP Connectivity**
Seamlessly integrate your vendor’s SIP trunks or combine PBXact UC with Sangoma’s own SIP trunking service called SIPStation for deeper integration and easy deployment, auto-configuring your channels at the same time.

**Mobility**
Remote workers can take the office with them with PBXact’s “anywhere access” allowing them to connect securely with built-in VPN functionality and features like follow-me to forward phone calls, voicemails and presence information.

“PBXact UC systems are designed to automatically integrate the complete range of Sangoma product lines, creating a true end-to-end solution for all business sizes.”

**Quick Start Installation Wizard**
The quick-start Installation Wizard for PBXact UC makes it incredibly easy to get your PBX set up with basic configuration in just a few minutes!

You no longer need to be an IT administrator to setup your phone system. The all-new dashboard gives you quick access to your most used features for easy management.

**Personal Administration**

**User Control Panel**
UCP provides each user with a web based login to allow easy control of their personal experience from any device. Users can view their call history, view contacts, set their presence and personalize their phone soft-keys like call forwarding, follow me, call waiting and do not disturb.

UCP also allows users to listen and manage their voicemail account and make/receive calls using built-in webRTC client, all from any desktop through their browser.

**Desktop Integration**
Zulu UC Desktop Integration is included with all PBXact Systems, providing users with: a feature-rich softphone for true office mobility including SMS and FAX capabilities, click-to-call from web browsers and screen pops for helpdesk integration.

**Integration with Sangoma IP Phones**

**Zero Touch Provisioning**
Designed specifically for PBXact UC, Sangoma’s line of IP Phones auto-provision themselves out-of-box using our Redirection Service.

**Full Suite of Phone Applications**
Users can now control complicated features directly from their phones right out-of-the-box. There’s no need memorize hard to remember feature codes!
FEATURE SPECIFICATIONS
